¹ A "*" following a place name indicates that the place is coextensive with a separate county subdivision. The county subdivision name is shown only if different than the name of the place. A "01" following a place name indicates that the place is an independent place or independent city. An independent place is not part of any legal county subdivision and thus serves as the statistical equivalent of a legal county subdivision. An independent city is not part of any county or legal county subdivision and thus serves as both the statistical equivalent of a county and a legal county subdivision. The name for the county subdivision is always the same as that of the place and never shown separately on the map.

Note: All legal boundaries and names are as of January 1, 2000. Where state, county, and/or county subdivision boundaries coincide, the map shows the boundary symbol for the highest level of these geographic entities. The county boundary is always shown. Where a county subdivision boundary coincides with a place boundary, the map does not show the place boundary symbol. Any geographic entity name may include '(pt.)' if some portion of the entity extends beyond the limits of the map area displayed on the page, or if multiple discontinuous pieces of the entity have been discretely labeled on the page. A geographic entity name may include '(pts.)' if many discontinuous pieces exist for that entity that cannot be discretely labeled. The boundaries shown on this map are for Census Bureau statistical data collection and tabulation purposes only; their depiction and designation for statistical purposes does not constitute a determination of jurisdictional authority or rights of ownership or entitlement.

The map displays Miller County, Missouri, in a light gray shade, surrounded by darker gray outlines of neighboring counties. The county is bordered by Morgan to the northwest, Camden to the south, and several others to the east and south. Major geographical features include the Lake of the Ozarks, which is a large reservoir in the center of the county, and the Osage River, which flows through the eastern part of the county. The map also shows several towns and cities, including St. Elizabeth, Olean, and Eldon. A key in the top right corner identifies the county's location within the state. A scale bar at the bottom right indicates distances in miles and kilometers, and a north arrow is located in the bottom right corner.
